

OFFICIAL DISPATCH

VIA: AIR
SPECIFY AIR OR SEA ROUTE

DISPATCH NO. EOGW-4867

CLASSIFICATION

TO : Chief of Mission, Frankfurt
Attention: ☐
FROM : Chief, EE

DATE: APR 2 1953

SUBJECT: GENERAL: Operational/CALL
SPECIFIC: Person Identified in EOLA-325

1. Last October ☐ asked the undersigned to look into the status of Subject, an ex-ZIPPERite. He is still in Washington and has his own office in town where he continues to work as a KUGOWN consultant. The KUGOWN officer who has been closely associated with Subject during the past three years is not aware of any intention on Subject's part to return to Germany. As a matter of fact, a few months ago he was trying to arrange for a son in England to join him here. It is not known, however, whether Subject has ever considered taking U. S. citizenship.

2. Although Subject has never participated directly in KUGOWN planning or operations, he has been used extensively as a consultant. At one time he held monthly seminars on Russo-German affairs for KUGOWN officers. We are told that Subject knows nothing of KUGOWN assets or capabilities. He is, presumably fairly well aware of certain of our objectives, targets and intentions, which he could readily have discerned from round-table discussions with KUGOWN officers.

3. KUGOWN has also shared Subject's services with ODACID. Subject spent several months screening captured German documents from which he later wrote innumerable reports on Russo-German relations and related matters of interest to KUGOWN. He has also worked in this field for the Library of Congress and MIT.

4. Should you develop any additional information locally regarding ZIPPER plans for Subject, please pass them along. The KUGOWN people and we would be most interested.
